Western Blotting Academy
Face 2 ce

Western Blotting Analysis: Tips and Tricks

Join us to hear our expert field application scientist on Western Blotting. During these best-in-class seminars you will have the opportunity to discover the key tips and tricks to make your western blotting experiments a total success or learn about any new trends in this well-established technology. There will be plenty of opportunity to network, discuss your own research, and ask your burning questions.

Date: **24 de Abril 2025**

Time: **11:30**

Location: **Faculdade de Medicina de Coimbra – Sala 75 (Subunidade 3)**

The topics that will be covered during this seminar include:

Confiança nos Western Blots: Western Blotting Troubleshooting

This seminar will be delivered in **Português.**
